

Custom Water Cooled Core Pins

- Especially designed, can be manufactured with coolant hole diameters from .062 to 1.00 inch and are machined concentric to ensure even cooling and faster machine cycle times.
- They are also available in the same variety of tool steels as the custom sleeves.
- O-Ring grooves and Counter bores are available to your specifications.
- O.D.s can be precision ground to fit standard or special sleeves.
- Custom vent flats, ring vents, head flats and keying to specifications.
- Fine detail grinding for medical and other demanding applications.
- We offer a variety of surface treatments such as Nitride, Laser Nitride, Titanium Nitride, Armorclad, WS2 and Armoloy to name a few.
