

Custom Ejector Blades

- Manufactured with a one piece design from High Chromium M-2 steel or Premium H-13 Steel.
- Resist corrosion, galling and pitting.
- Parallel ground to reduce wear - no hack marks for lower maintenance.
- Blade diameters from .062" up to 1".
- Blade lengths up to 10 inches with up to 20" overall length maximum.
- Smooth grind finish on the flats.
- Includes corner radius, custom flats, relief grooves, and special coatings.
- Fast delivery of 1 to 5 days on all custom blades.
