

# Custom Ejector Sleeves

- Straight, Step, Multiple Step or Thin Walled Sleeves.
- Manufactured from H-13, A-2, A-10, D-2, M-2, S-7, 440 and 420 stainless steel as well as Copper alloys including, but not limited to, Ampcoloy and Mold Max. Other materials per request.
- Custom Sleeves can be manufactured to a working hardness designed to your application.
- We also offer a variety of surface treatments such as Nitride, Titanium Nitride, Armorclad, WS-2, and Armoloy® to name a few.
- Sleeves ranging from under 1 inch long to 24 inches long are available.
- I.D.s and O.D.s are ground concentric to ensure proper alignment.
- Your custom sleeves can also be supplied with ejector pins for a matched slip fit.
- Custom vent flats, vent holes, ring vents, grease grooves, and other detail grinding available.
